PLANE FUN

IT'S prime flying season for **Blade**, the on-demand semi-private jet service that has quietly emerged as NYC's Uber of air travel. This season, Blade is launching new services — including direct seaplane flights between their swanky East River lounge/launching pad and the just-opened Gurney's resort in Newport, RI. Guests can book Gurney's fly-and-stay packages directly with Blade. Weekend prices start at \$1,700 per person — including flights and a hotel room (FlyBlade.com).
